RICHMOND, VA.

Friday Morning, August 22, 1845.

We have heard with surprise that some of the leading Whigs of this city have endeavored to impress upon the minds of our adopted citizens that in the election of Mr. Polk they had "caug' t the President, in the dispensation of public offices, would confer no appointment of any kind upon any one but a native-born citizen. We are happy to have it in our power to publish an entire refutation of this groundless charge—So far from the Union having furnished the least pretext for such an opinion, that journal a few weeks since, speaking of the appointment of consuls, employed the following language, which no one can misconstrue:

"Mr. Polk knows no difference between naa Tartar"-and that the Union had declared that

"Mr. Polk knows no difference between native and naturalized citizens. He has never made or contemplated any distinction between them. He has no sympathies with Native Americanism. Indeed, it was boldly advanced, that foreigners should be cut off, forever, from the invaluable right of suffrage. In Boston, Daniel Webster openly threw down the gauntlet in favor of the narrowspirited, rigid policy of the Native Americans .-At the late election in St. Louis, the Whigs and Native Americans coalesced and elected fullblooded representatives of the latter class. In a word, numerous instances may be produced, of an affiliation between the Whigs and Natives, and not one of any sympathy between the Democrats and the Natives. The doctrines of the latter are in direct conflict with the spirit of the Democratic party. They violate the principles of our liberal form of Government, and the plainly expressed sentiments of the early Fathers of the Republic, by shutting the door against the "oppressed of all nations." Our friends may rely upon it, that this tyrannous faction will find no favor at the hands of the Democratic party, or of those whom we have selected to carry out our views and wishes.

ELECTIONS.

TENNESSEE .- The Union of Wednesday night brings the following glorious returns from the home of the two "Hickories." It is a noble triumph, though North Carolina may well compete for the laurels. Too much credit cannot be given to Aaron V. Brown, for the gallant manner in which he met and conquered E. H. Foster, the most popular Whig in Tennessee. The Nashville Union, too, should receive a meed of praise from all true Democrats, for the ability and firmness with which it put down the humbugs and exploded the sophistries of its two Whig competitors, and rescued the State from a thraldom, which so little became the resting-place of Jackson. We welcome her back to the Democratic ranks with warm and cordial greetings. She has placed herself once more upon her Jeffersonian principles. She has done justice to the merits of her adopted son, President Polk, and will give a generous support to his Republican administration. The Whigs cannot now sneer at the President as wanting the confidence of his own State. Last November, if justice had been done, Tennessee would have cast her vote for Mr. Polk .-Now, there is no doubt that she is, heart and soul, devoted to the cause of Democracy.

VERY LATE FROM VERA CRUZ.

ARRIVAL OF THE WATER WITCH. No Declaration of War.-10,000 Mexican Troops

on their March to Texas! Important Correspon-We hasten to lay before the readers of the Tropic the latest news from Mexico. The Water Witch, Capt. Treanis, left Vera Cruz on the 5th inst., and arrived here between 5 and 6 o'clock this morning. It seems that, after all the gascon-ading despatches of the Mexican Minister, a Declaration of war is now very doubtful, Our prompt and intelligent correspondent tells

the whole story:

VERA CRUZ, Aug. 4, 1845. Dear Sirs :- I last had this pleasure, per Rerivals have since taken place from your port. The election of a new President commenced on the 1st inst., for which there are four candidates—say, Gen. Herrera, President ad interim, Gen. Almonte, Ex-Mexican Minister at Washington, Gomez Farias, and one other, whose name has escaped my memory. The Presidency, however, seems to lie between the two former, one of whom, it is supposed, will be the successful candidate.

Almonte has offered his services to Government in the approaching campaign against Texas; but I rather think it is more a ruse de guerre to help him to the Presidency, than any great desire he has got to have a brush with the Texians

H. B. M. brig of war Persian arrived here on the 27th ult., in seven days from Galveston, bring- ginia, and his appointment will give universal ing the news of the annexation of Texas being confirmed by President Jones-and also that a body of U. S. troops, say about 4,000 men, were expected at Galveston in the course of a few days. It appears now that our Government is in no hurry to declare war against the United States. or, at any rate, it seems to be the general opinion, that she will merely attempt to reconquer Texas, course, the news, by the Persian, caused a great excitement throughout the country. The Ministry has presented an act to the two Chambers for

their deliberation. 1st. To declare War against the United States.
2d. Authorising them to raise a foreign or national loan to the amount of 15 millions of dolwhich, in the language of Mr. Clay, "had burst lars, which they consider to be requisite to carry on a War, and reconquer Texas.

Of course you have heard, ere this, of the revo-lution at Tobasco, in favor of Federalism, which has induced Government to declare said port-closed to foreign as well as native shipping, but is rather puzzled to find out how they will keep out the former, as they have not got a single steamer that they can get ready in less than eighteen or twenty days, all the engineers being still, as I may

ed but a mere trifle.

The Tarifl question is still under discussion, or rather has been referred to a committee; but if they procrastinate as they generally do, God knows when we shall get sight of the long expected downward, and in the accommendation of the feelings of friendship and affection which the writer cherished for the deceased:

"Died in Leesburg, Va., on the morning of pected document—and in the meantime the country will lose a great deal, as merchants do not

like to ship with so much uncertainty. I have nothing further of interest to inform you of at present, and beg to subscribe myself, gen-

The Democratic party, before and after the last election, took a decided stand against this miserable faction. What has been the course of the Whig party, both here and elsewhere?
